	and the same of the same	and the state of

Totals United States. \$1,596,778,656 Inc. 34.6 Totals outside N. York. 586,584,434 Inc. 26.8 July bank clearings are usually of relatively small volume, reflecting, as they do midsummer quietness in speculation and business. It is no surprise, therefore, to find that the aggregate of bank clearings for that month is smaller than in any preceding month this year, with the exception of February. When comparisons are made with preceding months of July, however, at is found that the volume of bank clearings exceeds that of any corresponding month. An especially favorable showing is made when comparison is instituted with July, 1898, a month of large business and of unprecedented midsummer clearings. In every instance gains by groups of cities over 1898 prove to be heavier than were shown in June, and when the additional fact is remembered that only two cities of the United Staes showed decreases in July from July a year ago some idea may be had of the immense expansion in current clearings which has occurred. This practical unanimity in the matter of gains over a year ago is, in fact, a most striking feature of the month's returns, and it is doubtful if in this respect, at least, the record made in July by the individual cities has ever been equaled.

The total bank clearings at seventy-six decrease of 5 per cent. from the June total and of 18.7 per cent. from the record total of March, but a gain of 41.8 per cent, over July a year ago, of 47.3 per cent. over July, 102 per cent, over the correspond onth of 1894, and of 53.5 per cent. over July Another interesting feature brough July total this year from that of June is not so large as the falling off in July last year. The increase of 41.8 per cent. in the nonth just closed compares with a gain f 36.2 per cent. in June and of 54.6 per cent, in March, the month of largest clearings on record. Every group of cities showed a heavier gain in July than in June, the middle States group leading with an increase of 46.7 per cent., closely followed by a gain of 44.6 per cent. in New England. Next important in the matter of increases shown is the far Western group, with a gain of 38.5 per cent. Every group, howver, but one, the Southwestern, shows an crease in excess of 20 per cent., and in this group it lacks only a fraction of 1 per cent. of that gain.
As intimated above, the practical unanim-

ity of the cities of the country in showing gains over July a year ago is a special fea-ture of the present exhibit. Only two cities —Portland, Me., and Lowell, Mass.—show decreases, and even in these the losses are small. Among the large cities showing gains Minneapolis, in the Northwestern group, is ominent, with an increase of 53 per cent. New York and Boston also show large gains, the increase in the former being 48.4 per cent. and in the latter 48.6 per cent. Among the other important increases might be mentioned those in Philadelphia and San rancisco-40 per cent. each; Cleveland, 37 per cent.; Pittsburg, 30 per cent.; St. Paul, 26.4 per cent.; Baltimore, nearly 26 per cent.; Chicago, 25 per cent.; Milwaukee, 21 per cent., and St. Louis and Detroit, 20

hardly necessary to remark, never before equaled for that period, 45.7 per cent. larger than the aggregate for 1898, 84.6 per cent. larger than that of 1897, 115.5 per cent. larger than that of 1894, and 54.5 per cent. in excess of the seven months period of 1892. Here, as in July, the middle States group is, with an increase of 56.7 per cent. over last year, followed by the New England States, with a gain of 34 per cent., and at a greater distance by the Southern group, with an increase of 22.7 per cent. The Western and Northwestern States show gains in the neighborhood of 18 per cent. each, the far Western nearly 14 per cent., and the Southwestern, the smallest gain among American cities, 11 per cent.

#### ANOTHER BIG "COMBINE." Company Organized to Control Sup-

plies Used by Photographers. ROCHESTER, N. Y., Aug. 4 .- The General Aristo Company, of Rochester, was inbany to-day with a capital of \$5,000,000 to manufacture and deal in sensitive photographic papers and other articles and appliances used in photography. The directors are George Eastman, H. A. Strong, W. S. Hubbell, A. O. Fern, C. H. Palmer and George Wilder, of Rochester, and C. L. Abbott, of Jamestown.

Mr. Eastman, when seen to-night, said: "The General Aristo Company has been formed to purchase outright the photocraphic paper business of the Eastman Koak Company, of Rochester; the American Aristotype Company, of Jamestown, N. Y.; the Nepara Chemical Company, of Nepara Park, N. Y.; the New Jersey Aristotype Company, of Bloomfield, N. J.; the Photo Materials Company, of Rochester, and Kirkand's Lithium Paper Company, of Denver. It is intended to maintain and operate the plants of the American Aristotype Company, the Nepara Chemical Company and the New Jersey Aristotype Company. The six companies named sensitize about 90 per cent, of all the gelatin and collodion photo-

graphic paper in this country.' Arrangements have been made to secure for a term of years the exclusive agency for the United States, Canada and Mexico the raw papers of the General Paper Company, of Brussels, which markets the bye to Mr. Duggan, Glencairn's captain, and output for the mills of Messrs. Steinbach & the two had luncheon, discussing the result Co., Malmedy, Germany, and Blanchet & eber, Rives, France, for baryta coating

# or the above purposes.

Aluminium Comb "Combine." CINCINNATI, O., Aug. 4. - The Star Aluminium Company, of this city, is announced to have gone into a combine with the five other concerns of the country manufacturing aluminium combs. The new combine will be incorporated under the aws of New Jersey.

Coal and Iron Interests to Combine. NEW YORK, Aug. 4.- The Tribune will to-morrow, print the following: " It is reported that a combination will be effected of the more important coal and iron interests in the South, including the Tennessee | Champlin's Liquid Pearl, 50c. A lovely,

shia, though new and large mills make | Coal, Iron and Railroad Company, the Sloss easier in plates at Pittsburg. Bar Iron and the Virginia Iron and Steel Companies, with others of less prominence Such a combination would control the iron and steel industry in the South and, to a magnitude of the demand, in spite of high large extent, control the exports of pig iron and billets to Europe and South America.

### INJUNCTION DENIED.

Strikers May Visit a Factory and Persuade Men to Quit Work.

CHICAGO, Aug. 4.—In a decision rendered by Judge Windes, of the Appellate Court, sitting as a circuit judge, it has been decided that striking workmen may use persuasion to induce other men to quit work for a firm against which a strike has been ordered. They may also visit the factory or mill of the company and use whatever peaceable means they can to prevent others from working for the company or induce those who are at work to quit. The decision was announced in the suit of Frazer & Chalmers, manufaturers, who last week secured an injunction against the Iron Molders' Union restraining the organization from approaching or in any way influencing by personal contact the men who June 21 the workmen employed by the company struck. Other men were secured to take their places. The strikers assembled around the plants and used all the means in places to quit. They were so successful not expected to recover. No fatalities are that the company is unable to operate its | reported from McIntyre or Lanark. works, except in a few departments. It applied for an injunction to prevent the strikers from gathering in the vicinity of all high and dry on St. George's and Dog lence to induce the new men to quit.

A. 300 OFFICERS INDORSE ACTION TAKEN AT ANDERSON.

President Burns Thinks Indiana Anti-Trust Law a Good Thing-Date for Wage Scale Meeting.

PHILADELPHIA, Aug. 4.-At to-day's session of the Window-glass Workers' Association convention suits brought by indiidual members against various companies to show cause why the latter's charges should not be revoked were ratified. The suits are part of the workers' plans to prevent certain large manufacturing concerns in the State of Indiana from selling out to the trust. There is a law in Indiana which makes it illegal for corporations chartered by the State to dispose of their plant to another corporation operated wholly or in part without the State of Indiana. Acting under that lawsuits have been instituted within the past few days in Madison county, Indiana, against the Victor Glass Company, the Union Glass Company and the Anderson Glass Company, all of Anderson, Ind.; the Frankton Glass Company, of Frankton; the Elwood Window-glass Company, of Elwood, and several others. The full strength of the association has been pledged to bring the suits to a successful

issue. President Simon Burns, of the Glass Workers' Association, said to-night: "We cities for the month aggregate \$7,081,026,692, have taken an entirely new departure and instead of waiting for the trusts to fight

us, we have determined to fight them." The matter, he said, had been given careful consideration by the association and it was thought at one time to attack the trust out is that the decrease in clearings in the in New Jersey. This was subsequently reconsidered and Indiana selected as the batleground by reason of the fact that the anti-trust laws of that State afford the best aid for a successful contest.

The wage committee to-day sent another notice to the American Glass Company that t would not wait until Aug. 15 to meet the manufacurers, and setting Aug. 7, 8 and 9 as the dates for the conference. If these dates be not accepted they will at once pre-

Stallsworth, wife of a promithe total clearings at seventy-six nent sawmill operator, and attempted to a conference, to be neid at syracuse, Aug. as aggregate \$55,154,485,813, a total, it is assault her. The negro slightly wounded 9, to perfect arrangements for the proper several members of the posse.

### Searching for a Ravisher.

LAWRENCEBURG, Ky., Aug. 4.- The infuriated citizens who have been scouring the woods for the negro who assaulted Mrs. Louis McBrayer on Thursday are in town to-night, and there have been threats of taking Clarence Red, a negro, from jail and lynching him. George Harris, colored, who came near being lynched last night, was released to-day, as Mrs. McBrayer said he was not the man. She failed to identify four other negroes, who were released, and she is not positive about Clarence Red, who is now in jail on circumstantial evidence.
As Mrs. McBrayer has not positively identified Clarence Red, it is believed that he is safe in jail, and that the results of a trial | by acclamation. will be awaited.

FURTHER DETAILS OF THE STOR! ON THE GULF COAST OF FLORIDA.

Three Towns in Ruins, a Passenger Train Blown from the Track and Many Ships Ashore.

RIVER JUNCTION, Fla., Aug. 4.-The most disastrous hurricane that ever visited this section of Florida completely annihisouth of here, yesterday. At Carrabelle only nine houses remain of a once beautiful and prosperous town. Communications from the mayor state that 200 families are without homes or shelter, and many are completely destitute. Of McIntyre only two

mill boilers mark the place of the town. Lanark Inn, the famous summer resort, was blown into the gulf. The Carrabelle, Tallahassee & Georgia Rallroad is washed away for a distance of thirty miles. A passenger train was blown from the track took their places or intended to do so. On | more than one hundred yards. Many passengers were injured, but their names are unobtainable. Mary Williams, colored, was killed at Carrabelle. Numerous others had legs and arms broken. Daniel Neel, of

island cove and upper anchorage are now

the works or using persuasion, force or vio- island. Twelve were loaded with lumber and ready for sea. Nothing remains of them but a mass of wreckage. When the Italian bark Cortesia struck she split in two from stem to stern. The names of the ships blown on the islands and which are total wrecks are as follows: Norwegian bark Ranvalo, Edwardtzen master; Vale, Andersen master; Jafner, Tygensen master; Hindoo, Madsen master; Elzbeth, Pedersen master; Russian bark Latara, Krautman master; American schooners Benjamin C. Cromwell, McLean master; Mary E. Morse, Densmore master; Grace Andrews, Brown naster; Warren Adams, Gibbons master; James A. Garfield, Cottingham master; American bark Vidette, Waldron master; Italian bark Cortesia, fishing smack Albert Haley.

Three pilothoats and the steamers Oilo and Capitola and forty boats of under twenty tons were lost. Six lumber lighters, loaded, are gone. Not one of the entire fleet can be saved. Five unidentified bodies were recovered to-day, supposed to be sailors. Tugboats have gone from here to the being given. Fifty destitute sailors were brought here to-day and are being cared ance was small

Electrical Storms in Illinois. CHICAGO, Aug. 4.-During an electrical storm at Mount Pulaski, Ill., a barn of W. W. Curtis was struck by lightning and burned, with the contents, including three horses. Joseph Roleau's dwelling was struck and his family shocked. Mrs. Edward Mann and two children were standing at the gate of a barbed-wire fence and were knocked unconscious. Near Athens, Ill., James Waite was struck by lightning while threshing, and rendered unconscious. The corn crop in parts of Illinois has been assured by a hard rain. A hard rain in nearly all of lowa assures a big corn crop.

Cattle and Horses Killed. HICKSVILLE, O., Aug. 4.-A storm of cyclonic proportions raged all last night at Hicksville and reports show there was great destruction of property. Dozens of cattle and horses were killed and two fine barns were destroyed. Wires are down and reports come in slowly, but no loss of life has been heard of.

### GOEBEL DEMOCRATS.

Campaign Committee Named by One of the Kentucky Factions.

FRANKFORT, Ky., Aug. 4.- The Democratic state committee, through Chairman Young, to-night announced the twenty-five names of its campaign committee to conduct the canvass for William Goebel for Governor and the rest of the ticket nominated chines this coming fire. Six of these ma-chines were unloaded here yesterday and ture that will select a successor to Senator Lindsay. This committee is composed of ex-Senator Joseph C. S. Blackburn, chairman, ex-Congressman J. D. Clardy and J. B. Mc-Creary, from the State at large, and all the Democratic congressmen from their respective districts and other leading Democrats from the eleven districts in the State. Owing to the prospective ticket headed by ex-Governor John Young Brown, the campaign in Kentucky this year will be hotly con-

New York Bryanites. ALBANY, N. Y., Aug. 4 .- The executive committee of the Chicago platform Demo-Wednesday night he entered the room of city, is secretary, to-night issued a call for a conference, to be held at Syracuse, Aug. organization of the party in this State for the coming national convention. The call in part, says: "There is now an organized effort being made in this State to send to the next national convention a delegation hostile to almost every principle laid down in the Chicago platform. The avowed purpose is to create dissension in the ranks of the party and bring about such a condition of affairs as will result in the defeat of the Democratic candidate at the next presidential election. It behooves all Democrats to be on guard and save the party from possible defeat."

> Nominated for Congress. ST. LOUIS, Aug. 4.-The Republicans of the eighth Missouri congressional district in convention at Jefferson City this after-noon nominated J. W. Voshall for Congress

### ALLEGED COUNTERFEITERS.

Man and Woman Arrested on Suspicion of Making Bogus Coins.

SAN FRANCISCO, Aug. 4.-Agent Cronin, of the United States secret service division. made a clever capture to-night of a man and woman who are suspected of having been engaged in the manufacture of counterfeit dollars, halves and dimes for a long time past. The man and a confederate were arrested by the secret service officers, who had been watching them for some time. only stated what have been my convictions just as the alleged counterfeiters had passed from the first. So far the warfare has raged a bogus dollar on a saloon keeper. The confederate escaped, but Karl Kristensen and Mrs. Mary Terry, alias Mrs. Kristensen, alias Nellie Brown, were arrested in the vicinity. The woman came from Lahsing Mich., two years ago, and since last April has been living with Kristensen at No. 541 Eddy street. In their rooms were found several counterfeit coins, a complete outfit of molds and a quantity of tin and lead with which the counterfelt money had been They also found a number of half finished coins. Kristensen admitted having made the coins, but said he coined counterfeits merely for pastime and that he had no intention of passing them. He stated that he had carried the coins with him to

avoid the appearance of being broke. Ministers Oppose Mormon Roberts. CHAUTAUQUA, N. Y., Aug. 4.-The Chautauqua Ministers' Club, composed of ministers from nearly every State in the Union, discussed the question of the admission of Representative Roberts to Congress. The opposition to Mr. Roberts retaining his seat was very strong. It was re-solved that the members of the club take up the matter with their local congressmen.

To Receive Military Honors. SAN FRANCISCO, Aug. 4.- The body of Col. Alexander Hawkins, of the Tenth Pennsylvania, will receive last military nonors in this city to-morrow afternoon.

escort to take part in the funeral. The volunteers who are now encamped at the Presidio will also attend out of respect to the memory of the deceased and in sympathy with their comrades in arms. The body will be sent East to-morrow night.

#### SLAIN BY THE YAQUIS.

Americans Killed by Mexican Indians While En Route to Alamos.

SAN ANTONIO, Tex., Aug. 4.-News reached here to-day that Walter Hemming, an American from this city, had been killed in a raid by the Yaqui Indians in the mountains east of Guyamas. Hemming left here in April last with two companions to search lated Carrabelle, McIntyre and Lanark Inn. for gold in the Yaqui country. It is also stated that Jack Ramsey, the famous frontier character, and the American photographer. Ed Miller, were on the way to Alanos when they were attacked by the Indians and killed. Three sloops on the Yaqui river, near Medaro, were also attacked and Aurillo F. Paredes, who was in charge of them, was killed. The vessels were set on fire but were saved by federal forces, who drove the savages away. The body of Parades was found floating in the river.

#### General Torres Wounded.

ST. LOUIS, Aug. 4 .- A special to the Republic from El Paso, Tex., says: A dispatch received this evening from Hermosillo, Mexico, headquarters of the Mexican their power to get the men who took their | Apalachicola, had his back broken and is army operating against the Yaqui Indians, says: "The Mexican government anticipated the Indian outbreak and had been making Fifteen ships lying at anchor in Dog heavy shipments of war material into the State of Sonora for two months. On the other hand, the Yaquis had been preparing for the conflict for two years. General Torres, commandant of the military zone, was not killed, as reported, but wounded in the thigh and is now very low. The government will place 10,000 men in the field if

"The rebellious Yaquis now number 4,000 well armed warriors. Sixty Indians were number wounded. The telegraph wires between Vican and Potam have been cut by the rebels and the troops are without con munication with headquarters. It is authoritatively reported that the Indians have slaughtered both women and children and that many American prospectors in the mountain regions have been slaughtered."

### WOMEN CARRY AN ELECTION

Elect Mrs. James Roosevelt's Gardener to Be a School Trustee.

NEW YORK, Aug. 4 .- In the Poughkeepsie school election the women of the "four hundred," armed with victorias and fine gowns, led by Mrs. James Roosevelt, related by marriage to Governor Roosevelt, espoused the cause of her gardener, John scene of the wreckage and all possible aid is ! Wallace, who was anxious to be a school trustee. John Wallace was elected by a narrow majority, defeating James Toland, A mass meeting of citizens is being held an innkeeper, and it was the votes of the here to-night and all possible aid will be women that elected him. It was seen early women that elected him. It was seen early given the Carrabelle destitute. One million that women's votes would decide the elec-dollars will not cover the loss. The insur-The effort was then made to win the women's votes. A number of Vassar students went into the campaign with great vigor. Roosevelt and her daughter made many trips in their handsome victoria electioneering for Wallace. They won votes wherever they appeared, and when they told the women that flowers were healthier than beer the thing was done and Toland, the innkeeper, was beaten.

#### DEATHS ON THE GALLOWS, Italian, Two Negro Murderers and a

Black Rapist Hanged. NEW ORLEANS, Aug. 4.-Frank Naska, an Italian, was hanged at St. John, La., at 1 o'clock to-day. Naska killed three people and wounded two others about three years ago. His victims were his countrymen.

VAN BUREN, Ark., Aug. 4.-John Maxey, a negro rapist, was hanged here to-day He maintained his innocence to the last, and in a speech on the gallows he invoked a curse on the people of Van Buren for the injustice they had done him. CHARLESTON, S. C., Aug. 4.-James

Phelps and Sam Balley, two negroes, were hanged in the county jail from the same scaffold at 11:10 o'clock this morning. The negroes were pronounced dead in twelve minutes. Phelps killed a policeman and Bailey took the life of a companion in a quarrel over cards.

### VIADUCT GIVES WAY.

Trolley Car Falls Twenty-Five Feet and Eight People Are Hurt.

NASHVILLE, Tenn., Aug. 4.-Late to night a section of the Broad-street viaduct gave way with a trolley car returning from Glendale Park. The car fell twenty-five feet, fatally injuring the motorman, James Bruce, and badly shaking up the conductor and the six passengers aboard, all of whom were injured, but none seriously. The accident was caused by an unmanageable freight train leaving the track and colliding with one of the viaduct's supports just before the trolley car started across.

### OVERCOME BY THE HEAT

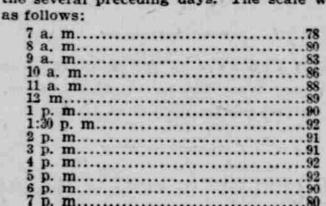

TWO PROSTRATIONS WERE RECORD-ED IN THIS CITY YESTERDAY,

Fifteen-Threatening Weather Promised for To-Day.

Two heat prostrations were reported yesterday. Tony Miller, who drives a wagon for the city, fell from it three times, being overcome by the heat, and the last time he was in a serious condition. He was taken to his home, No. 508 Vinton street, and was attended by Dr. Rose. He

Charles Luessow, a truckman employed at the L. E. & W. freight depot, was overcome by the heat in the afternoon and was taken to his home, at Iowa and Singleton streets, in the city ambulance. The break in the hot spell came last night,

when the storm threatened and a cooling breeze sprang up. The temperature of the day had kept well up to the standard set by the several preceding days. The scale was

Fifteen Prostrations.

CINCINNATI, Aug. 4.-The thermometer reached 98 degrees here to-day and the exodus by excursions continued. There were fifteen prostrations, none serious, as follows: Fred Schroeder, Theodore Franken, William Bornado, Harry Vogel, William Guillmer, Clifford Rybolt, William Clawson, John H. Dorsel, Mary Stone, Jacob Eishart, Albert Donelly, Mrs. William Morgenroth, Thomas O'Hara, Joseph Larkin and Henry Schuster. Relief came to-night after rain. The past two days were the hottest here for twelve years.

Employes Hunt the Shade. Special to the Indianapolis Journal.

WABASH, Ind., Aug. 4.-One hundred of the employes of the Pioneer hat works were obliged to quit work to-day because of the intense heat. Nearly all of them were engaged in the finishing room. They will not resume until the weather moderates. This has been the hottest day of the year, the mercury registering 100 in the shade.

Too Hot for Glass Workers. Special to the Indianapolis Journal. HARTFORD CITY, Ind., Aug. 4.-The thermometer registered 96 degrees in the shade here to-day, the hottest it has been in many years. Bottle factory employes and other mill hands had to temporarily suspend work, and there were several prostrations. Business was at a standstill

Cotton Damaged. ST. LOUIS, Mo., Aug. 4.-Dispatches from Pine Bluff, Ark., say the intense heat of the past couple of weeks has caused the cotton in that vicinity to shed. The growth of the plant has been suddenly arrested, and unless weather conditions are soon changed and rain falls the result to the crop will be

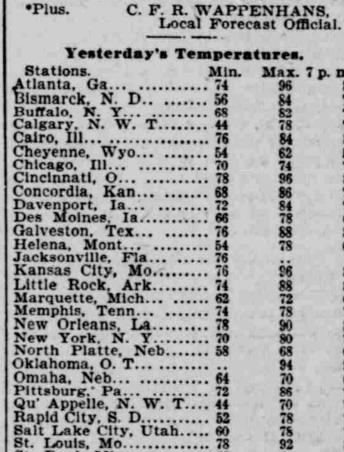

Rev. Milburn Improving. LINCOLN, Neb., Aug. 4.-The Rev. W. H. Milburn, the blind chaplain of the Senate, who yesterday suffered from sunstroke, passed a fairly comfortable night and was much improved this morning.

Heat Ignites Celluloid. PARIS, Aug. 4.- The intense heat to-day caused a fire in a celluloid factory, which was destroyed. Three firemen and a workman were injured. UNSETTLED WEATHER.

Local Thunderstorms Probable To-Day and To-Morrow. WASHINGTON, Aug. 4.-Forecast fo Saturday and Sunday: For Ohio, Indiana and Illinois-Unsettled weather, with local thunderstorms on Sat-

urday and probably Sunday; variable winds. Local Observations on Friday. Bar. Ther. R.H. Wind. Pre. a. m.......29.92 78 79 p. m......29.82 80 48 Maximum temperature, 92; minimum temperature, 75. Following is a comparative statement of the temperature and precipitation Aug. 4:

#### G. A. R. GENERAL ORDER

Springfield, Ill... ...... 72

Thirty-Third National Encampment to Convene on Sept. 6.

CINCINNATI, Aug. 4.-Acting Commander-in-chief W. C. Johnson, of the G. A. R. has issued what may be his last official general order. It applies to the coming National Encampment, in Philadelphia, Sept. 4. It establishes the national headquarters at the Continental Hotel. All national officers are to report at that place Monday, Sept. 4, at 10 a. m. The national council of administration will meet in the Continental Hotel at 4 p. m. Sept. 4. The thirty-third National Encampment will convene for business at 10 a. m. Wednesday, Sept. 6, in the Grand Opera House. The parade will be Tuesday, the 5th, at 10 a. m. The order appoints the following committee on credentials: R. M smock, adjutant general Department of Indiana; John M. Thacker, adjutant general Department of Connecticut; C. M. Hassler, Department of Ohio, and John D. Bell, Department of New York.

Shooting at a Soldiers' Home. MILWAUKEE, Wis., Aug. 4.-David Anderson shot and fatally wounded Captain Thomas L. Pollock and seriously injured Michael Mullen at the Soldiers' Home today. The shooting took place while Capt. Pollock was attempting to arrest Anderson. Mullen was assisting in the arrest. All are inmates of the home.

dent of the bank at that place. All the par-Columbia Will Not Race To-Day. NEWPORT, R. I., Aug. 4.—While the new cup defender Columbia will not race to-morrow with the other three Herreshoff single-stickers, Defender, Vigilant and Navahoe, those who go out with the idea of witnessing the contest will not probably be much disappointed, as the Columbia will be in the fleet, although not as an actual participant in the race.

cargo valued at \$1,500,000. She was sent to quarantine upon her arrival. This is her first trip to San Francisco, and marks the beginning of a new line to the Orient, to be run in connection with Santa Fe Rail-

#### RATE WAR PROBABLE.

Erie Railway Virtually Withdraws from the Presidents' Agreement.

NEW YORK, Aug. 5 .- The Tribune says: "On account of the refusal of the Michigan Central and the Lake Shore & Michigan Southern to cease selling reduced excursion tickets from the West to Portland, Me., the Grand Trunk Railway to cease selling reduced excursion tickets to Boston and to return to the rate basis established by the railway presidents at a recent conference, the Erie has decided to be bound no longer by the terms of the agreement. The conference was called in consequence of the Erie's purpose to make a low rate to Boston. It is the belief of some Wall-street observers that the apparent violation of the agreement by the two Vanderbilt lines men-tioned signifies that a serious rupture has occurred between the Vanderbilts and the Morgan interests, which control the Erie Railroad Company."

#### ADVANCED MEDICAL IDEA.

Examination of Men Who Apply for Marriage Licenses Recommended.

MILWAUKEE, Aug. 4.-Health Commissioner F. C. Schultz, in his annual report to the City Council, recommends the passage of a bill providing for the medical examination of all young men who apply for marriage licenses. In describing the several diseases which have caused havoc in the health of the community, embracing smallpox, diphtheria, scarlet fever and kindred ailments, the commissioner includes also the diseases common to men only, such as certain forms of insanity, dipsomania and other ills, and enlarges at some length on the baneful effects of allowing them to go unchecked and unnoticed by medical authorities. Dr. Schulz makes reference to a similar law existing in Ohio and indicates that the course recommended would be in harmony with more advanced medical ideas.

### PLAN OF DETROITERS.

Want to Parallel or "Straddle" Pres-

ent Street-Railway Lines. DETROIT, Mich., Aug. 4 .- A meeting of citizens who favor municipal ownership of street railways under some plan other than that recently urged by Governor Pingree was held to-night. It was decided to attempt street-car lines through amendment of the city charter, such proceeding having been made permissible through an act of the last Legislature, provided a majority of the peoole vote for it. A petition will be circulated, irected to the Common Council, asking for ubmission of the desired charter amendments to a vote of the people. The plan of the promoters of this latest project is not o buy street railways, but to parallel or

#### 'straddle' present tracks. TEST OF A BICYCLE BOAT,

Trial Trip Appears to Show Practica-

bility of a Strange Device. TORONTO, Ont., Aug. 4.-A novelty in marine construction, a bicycle boat, after a severe test on the bay here, appears to be practicable. It was invented by Charles Clark, of this city. It consists of two cylindrical galvanized iron tubes thirteen feet | the literal spelling), the Colorado and the long and one foot in diameter, tapering to a point at the ends, surmounted by an iron frame work, bicycle fashioned. The propelling power is obtained from a bevel gearing, which operates a screw. The steering is done with the handle. The machine cannot be capsized, and goes equally well in

Three Young Men Killed by a Northwestern Passenger Train.

ern passenger train ran into a wagon and team east of this city to-day, instantly kill- | tion." But when he is told, and truthfully ing two men who were in the wagon and injuring the third so that he died in a short use a small part of the boundless stores of time. There was nothing on their persons energy which really exist in the air and or in the wagon to indicate who the men were or where they came from. From the whether this new thing is any more unlikely outfit in the wagon it is inferred they were on a hunting trip. They were all young men, none of them appearing to be more than twenty-five years old and the youngest

### QUADRUPLE TRAGEDY.

Father Murders His Three Small Children and Kills Himself.

SUSQUEHANNA, Pa., Aug. 4.-Charles Yeager, aged forty, of Brandt, a small manufacturing village four miles south of here, murdered his three small children early today by cutting their throats, and then com-mitted suicide by the same means. It is believed the father was insane.

### Reforming a Convict.

Saturday Evening Post. Mrs. Ellen Johnson, of Boston, who died suddenly in London last month, was one of the most famous penologists in the world. For many years she was the head of the Massachusetts Reformatory Prison for Women, at Charlestown, and she was an expert of worldwide fame. Many stories are told of her peculiar methods of subjugating refractory prisoners. She appealed to their finer qualities. She believed that if she could interest a woman in some kind of work her reformation might be accomplished. One of her worst prisoners was a voman of foreign birth who had been con-

terror of her keepers, and she was kept almost constantly in handcuffs. About a year after the woman was brought to Charlestown a warden of a Connecticut prison paid Charlestown a professional visit. "I have heard a good deal about your bad prisoner whom you have reformed," he said. "You know she never was in my prison, and I'd like to see her. "You shall," said Mrs. Johnson, "if you have not already met her. They were walking through the prison as they talked and had come to the room where Mrs. Johnson kept some silkworms and other interesting things, in which the better grade of prisoners took great interest. It was well filled with women, and a stalwart convict was explaining the cocoons to her prison mates, volubly, and with evi-dent learning upon the subject. "You wouldn't believe it if I were to tell you that you have probably seen her," went "She wasn't that good-looking woman I saw in the flower beds, was she?" asked the visitor, making a wild guess.
"No," answered Mrs. Johnson. life prisoner, sent here for murdering her husband. She is the woman who is lecturing on silkworms. She became interested in the subject, and now she is one of the best

#### women in the prison." THE FILIPINO SCHOOLBOY. He Learns Very Little About the

United States. Manila Letter in Leslie's Weekly It has been frequently remarked that the Filipinos could have no conception of the extent and resources of the United States or they never would have been deceived into the hallucination that they could successfully combat us. In going through their school here I found a little manuscript vol-ume in which, in less than a hundred manto secure authority for city ownership of uscript pages, was composed all of syntax and geography that was taught the chi here. And it must be remembered that Maolos, before the insurrection, was an important city in this part of the world, and one where the children would be expected to receive the average education. Turning to one of the pages of this book that picked up, I found the United States of America discoursed upon, immediately after Nigricia, and just before Mexico. Here is the entire lot of information given as to

the United States, in the form of questions and answers: "Where is this country (the United States) situated? In North America. "What are its boundaries? To the north, British America; to the east, the Atlantio ocean and the Bahama channel; to the south, the Strait of Florida and the Gulf of Mexico, and to the west, Mexico and the Grande (Pacific) ocean.

What is the form of government? It is federal republic "Of what is this republic composed? Of forty different States. 'What are its rivers and mountains? The most notable rivers are the Misisipi (literal spelling), the Niagara, the Missori (again St. Lawrence, and the principal mountains are the Cumberland and the Rockies. "What is the capital? Washington, but the most important city is New York. "Protestantism prevails, but there are And this is the sum total of what the average Filipino boy has been taught about our rather considerable and somewhat pros-

What Liquid Air Cannot Do.

Edwin H. Hall, in August Forum. When a man of ordinary business experience is met by the statement that liquid air can be used to drive an engine, and that HUMBOLDT, Ia., Aug. 4.—A Northwest-ern passenger train ran into a wagon and produce ten gallons of liquid air, so used, will produce ten gallons of liquid air, he is in-credulous, and says, "That is perpetual motold, that the new proposition is not to cre-ate something out of nothing, but merely to puzzled, if not convinced. He may ask than the telegraph, or the telephone, or the Roentgen rays seemed at first. To this question there is a plain answer: The various wonders just named were not, even at first, ciple. They added a few pages to the book of science; but they did not require the erasure of a page already included therein. The marvel of the telephone, for example, lay not in the revolution in opposition to any accepted scientific lay not in the revolution of our ideas as to electricity and magnetism, but rather in the revelation of unsuspected sensibility of the human ear to slight impressions. That many interesting facts have been discovered by the study of liquid air is obvious; that important uses will be found for this article is probable; but that liquid air, taking energy from objects at the ordinary temperature about us, can permanently replace the usual agencies for the performance of work, is a proposition against which can be set one of the most firmly established principles of physical science—a principle upon which is based a large part of all that has been written during the last fifty years concern-

### Allen's Little Joke.

ing the relation of heat to other forms of

Saturday Evening Post. No man in Congress has a keener sense of humor than John Allen, of Mississippi who for various reasons has been much in the public eye during the past few months. Not long ago, in the midst of a very interesting speech, a member on the other side "May I interrupt the gentleman from Mississippi for a moment? fined in nearly every prison from New York to Portland. She was a thief, drunkard and almost a murderess. Her temper was the "The gentleman from Mississippi allows no interruptions except for applause."
